Controlled-use dispensing systems

Wave'n Dry® Electronic Dispenser

The Wave'n Dry® dispenser is a pioneer in the touch-free towel dispensing market. With no levers, buttons or cranks, the Wave'n Dry® dispenses a single towel at the wave of a hand, ensuring that the only thing you touch is your personal towel. Towels are stored fully protected inside the dispenser until you request service, which is particularly important in public washrooms, food preparation areas and healthcare environments where prevention of cross-contamination is critical.

OptiServ Hybrid® Hands-Free Dispenser

Unique and elegant, the OptiServ Hybrid® offers the benefits of electronic touch-free dispensing as well as the convenience of mechanical dispensing when desired. In either mode the OptiServ Hybrid® delivers a single pre-measured towel that encourages users to take only what is needed to reduce waste, making it ideal for office buildings, colleges and universities and high-traffic washrooms.
